## **New TPG Bundle Deal Offers Unlimited International Calls to 80 Countries**

Sydney, 7 August 2013 – TPG has launched its latest ADSL2+ with Home Phone Bundle deal, offering customers incredible value with unlimited calls to landline and mobile numbers in 80 selected countries.

For \$88 per month, the Eighty Eight Bundle offers Unlimited ADSL2+ with Home Phone Line Rental plus:

- Unlimited local and standard national calls to landlines (excl. directory service)
- Unlimited calls to TPG Mobile numbers
- Unlimited international calls to landline and mobile numbers in 80 selected countries including Bangladesh, Canada, China, France, Germany, Hong Kong, India, Indonesia, Iran, Ireland, Japan, Malaysia, New Zealand, Singapore, South Africa, Taiwan, Turkey, UK, USA, Vietnam and others (excl. satellite phones)
- A Wi-Fi modem

TPG’s Consumer General Manager, Craig Levy, indicated that the new bundle is released as a response to an increasing customer demand for unlimited international calls to countries not included in the previous bundle deal.

“We’ve seen a lot of requests from customers to include unlimited international calls to countries that weren’t part of our previous bundle deal. I am pleased that we are now able to address this demand by offering unlimited calls to a lot more countries than before,” said Mr. Levy.

The new bundle also places TPG in a unique position in the Australian marketplace as the only telecommunications provider that offers unlimited calls to such a large number of countries.

“This is the first deal of its kind in Australia. Offering unlimited calls to both landlines and mobiles in 80 countries is simply unthinkable for other providers”, added Mr. Levy.

The Eighty Eight Bundle is available on a 24 month contract (minimum charge \$2,221.95) for new residential customers.

For the full list of included countries or more information on the Eighty Eight Bundle, visit [www.tpg.com.au/88-bundle](http://www.tpg.com.au/88-bundle).

### About TPG

TPG (ASX: TPM) is a force in the Australian telecommunications industry. Our people, products, network assets and innovation have enabled us to provide our customers with communication services that are reliable, fast and cost effective.

We provide a diverse range of communication services to residential users, small and medium enterprises (SMEs), government and large corporate enterprises. TPG offers nationwide ADSL2+, Fibre Optic and Ethernet broadband access, telephony services, Internet Protocol Television (IPTV), SIM Only Mobile plans, Mobile Broadband and various business networking solutions.

TPG owns end-to-end network infrastructure which includes over 400 DSLAM enabled telephone exchanges across Australia, extensive metropolitan fibre optic networks and the international PPC-1 submarine cable connecting Australia and Guam with onwards connectivity to USA and Japan. As we operate and manage our own network infrastructure, we take end-to-end responsibility in the services we offer.
